Please call Larry if you would like a free ticket to the tour, 241-2967.

For all tour site locations and complete tour information, go to the NARI website, www.narimadison.org. Look under NARI Members/Events.

Remodeled Homes Fall Tour is Set for October 9

Located on the waters of Cherokee Marsh, this contemporary, whole house remodel transformed the interior and exterior of this home. Come visit this spectacular whole house remodel, Site #2 on the NARI Fall Remodeled Homes Tour.

This phased remodel includes a re-designed front entry, two additions, energy efficiency improvements and revamping the exterior. The additions added a master bedroom suite and a gorgeous screened porch.

The project also includes two new open stairways, adding a third bathroom, improved storage and a re-modeled solarium. The homeowners also recently finished improvements to the landscaping and shore line.

There are five levels to this unique house. You must see this home to appreciate the complexity and transformation of the project!

This whole house remodel reconfigured existing space and transformed a house into a beautiful and comfortable home.
